User Acceptance Testing Report – BookNest

Date	6 March 2026
Team ID	LTVIP2026TMIDS88565
Project Name	Booknest where stories nestle
Maximum Marks	4 Marks

Introduction

User Acceptance Testing (UAT) is performed to validate whether the BookNest application meets the end-user requirements. This testing ensures that the system functions as expected from the user's perspective.

Objectives of UAT

- To verify application usability
- To confirm functional requirements
- To ensure user satisfaction
- To validate business flow

UAT Participants

- End Users (Readers)
- Sellers (Book Managers)
- Project Reviewer

UAT Test Scenarios

Feature	Test Description	Result
User Registration	Register using valid details	Pass
Login	Login with correct credentials	Pass
Book Browsing	View books with images and genres	Pass
Search & Sort	Search by name, author, genre	Pass
Cart	Add books to cart	Pass
Seller Actions	Add / Delete books	Pass
Logout	Secure logout	Pass

Acceptance Criteria

- All major features function correctly
- Navigation is user-friendly
- No critical errors observed
- Application meets user expectations

User Feedback

- Interface is clean and simple
- Book images enhance user experience
- Search and filter features are effective

Conclusion

The User Acceptance Testing confirms that BookNest fulfills all user requirements and is approved for deployment and submission as part of the APSCHE internship.
